About Bright Vision Technologies

Bright Vision Technologies is a technology consulting and software development company.

The company provides cloud, AI, data, and enterprise solutions across the United States.

This position offers an opportunity to work on enterprise technology solutions.

About the Position

Bright Vision Technologies is looking for a Storage Solutions Engineer with strong enterprise storage experience.

The engineer will design, deploy, and operate storage systems that support compute, virtualization, database, and Kubernetes workloads.

HIRING ORGANIZATION

Bright Vision Technologies

EMPLOYMENT TYPE

Full-time

JOB LOCATION

? Remote work from: United States

DATE POSTED

? 09/22/2026

The role covers block, file, and object storage across data centers, edge environments, and cloud platforms. The position also focuses on storage performance, data protection, cost management, and automation.

Key Responsibilities

- Design enterprise storage solutions.
- Deploy storage platforms across business environments.
- Operate storage systems at scale.
- Support compute workloads.
- Support virtualization environments.
- Support database workloads.
- Support Kubernetes workloads.
- Manage block storage.
- Manage file storage.
- Manage object storage.
- Work across data center environments.
- Support edge storage environments.
- Support cloud storage environments.
- Optimize storage performance.
- Support data protection.
- Plan storage capacity.
- Manage storage costs.
- Automate storage operations.
- Troubleshoot storage issues.
- Troubleshoot network-related storage issues.
- Troubleshoot host-level storage issues.
- Integrate storage with VMware.
- Integrate storage with Kubernetes using CSI.
- Maintain reliable storage infrastructure.

Required Qualifications

- Bachelor's degree in Computer Science, Information Systems, or a related field.
- 5+ years of enterprise storage engineering experience.
- Deep experience with NetApp ONTAP or Pure Storage FlashArray/FlashBlade.
- Hands-on production experience with Ceph.
- Strong understanding of SAN.
- Strong understanding of NAS.
- Strong understanding of object storage protocols.
- Experience integrating storage with VMware.
- Experience integrating storage with Kubernetes CSI.
- Strong scripting and automation skills.
- Experience with Ansible.
- Experience with Terraform.
- Experience using REST APIs for automation.
- Strong knowledge of storage performance.
- Strong capacity planning skills.
- Strong cost optimization skills.
- Strong troubleshooting skills.
- Ability to troubleshoot across storage, network, and host layers.
- Excellent communication skills.
- Strong collaboration skills.

Preferred Qualifications

- NetApp certifications such as NCDA or NCIE.
- Pure Storage certifications.
- Experience with hybrid-cloud storage replication.
- Familiarity with software-defined storage platforms beyond Ceph.
- Experience with object storage at petabyte scale.
- Exposure to AI and machine learning workloads with high I/O requirements.

Sponsorship Information

The company encourages applications from:

- U.S. Citizens.
- Green Card Holders.
- EAD Holders.
- H-1B transfer candidates.

Bright Vision Technologies cannot sponsor new H-1B visa petitions for this position.

Work Environment

- 100% remote.
- United States-based position.
- Full-time employment.
- Direct W2 position.
- Enterprise technology environment.
- Cross-functional collaboration.
- Storage engineering across data center, edge, and cloud environments.

Compensation

Salary is \$100,000–\$150,000 per year.

Equal Employment Opportunity

Bright Vision Technologies is an Equal Opportunity Employer.

The company is committed to equal employment opportunity for employees and applicants. Employment decisions are made without regard to protected characteristics under applicable federal, state, or local laws.

The company prohibits workplace harassment and discrimination.
